Your Belief Tree

How This Workbook Works

This workbook is organized in **4 layers**, working from the deepest conditioning to the surface-level chatter:

Layer 1: The Soil — Faulty Core Identity > Who you believe you ARE at the deepest level. These beliefs formed in childhood, absorbed before you could question them. They feel like identity — but they are conditioning. Clearing these unlocks everything below.

Layer 2: The Roots — Faulty Core Beliefs > The structural beliefs that spread from your core identity. How you believe the world works, what your worth depends on, what you must do to be safe or loved. These are the ‘rules’ your system runs on.

Layer 3: The Trunk — Limiting Beliefs > The specific ‘shoulds,’ ‘musts,’ and ‘can’ts’ that govern your daily choices. These feel personal and real — but they are distortions of energy that was never yours. Each one traces back to a gate you absorbed.

Layer 4: The Leaves — Negative Programs > The automatic thoughts — the constant inner chatter. ‘I’m so lazy.’ ‘Why can’t I just...’ ‘Something is wrong with me.’ These are symptoms, not causes. When the layers above clear, these dissolve on their own.

Each day, you’ll work through **5 belief pairs**:

1. **Read** the limiting belief aloud.
2. **Feel** where it lives in your body.
3. **Clear** it — scribble, tap, breathe, or your preferred modality.
4. **Read** the empowering belief aloud, slowly, **three times**.
5. **Pause**. Let your body register the shift.

You’ll start at **Layer 1 — Core Identity** and work DOWN through the tree. By the time you reach Layer 4, the daily negative programs will be dissolving from the root, not just being managed at the surface.

LAYER 1: The Soil — Faulty Core Identity

Who you believe you ARE at the deepest level. These beliefs formed in childhood, absorbed before you could question them. They feel like identity — but they are conditioning. Clearing these unlocks everything below.

Day 1

Belief 1

Layer 1 / Ajna / general

Limiting: “I am indecisive at my core. I can’t commit to anything because I don’t really know what I believe.”

Empowering: “I am a Projector — I am here to guide, not to grind. I succeed through recognition and invitation, not through sustained output. My open Ajna processes multiple truths. I am not indecisive — I am spacious. My mind holds complexity that fixed minds cannot.”

Belief 2

Layer 1 / Ajna / general

Limiting: “I am not an intellectual. My thoughts aren’t structured or impressive.”

Empowering: “I am a Projector — I am here to guide, not to grind. I succeed through recognition and invitation, not through sustained output. My open Ajna reflects mental diversity. I don’t need rigid structure to be intelligent. My knowing arrives through synthesis, not through narrowing.”

Layer 1 / Ajna / general

Limiting: “I am mentally inferior. Other people’s thinking is sharper and more certain.”

Empowering: “I am a Projector — I am here to guide, not to grind. I succeed through recognition and invitation, not through sustained output. My open Ajna is not inferior — it is adaptive. I think fluidly because I’m not trapped in one framework. Flexibility is my intellectual gift.”

Belief 4

Limiting: “At my core, I am confused. Other people seem to know what matters — I never do.”

Empowering: “I am a Projector — I am here to guide, not to grind. I succeed through recognition and invitation, not through sustained output. My open Head receives the world’s questions. Belief 5

Layer 1 / Head / general

Limiting: “I am not a deep thinker. My mind is scattered and unreliable.”
